I am writing this letter of recommendation of the behalf of Amber Lawson.

While working with Amber Lawson I have recognized her as a distinguished teacher. Her strong character and zeal for educating students exudes in her effective strategies that engage students to learn. Her strong points are executing tasks timely and efficiently that ultimately benefit the succession of her work.

Developing an immense work relationship with Amber Lawson was easy based upon her great work ethics and superb professional comportment. Her scholarly achievements are definitely portrayed in her communication, conduct, and work ethics.

In my experience of working with first year teachers I have coached largely on classroom management and school culture. I found it fascinating to know that many of those strategies are attributes Amber Lawson already posses even as first year teacher. I often commend Amber Lawson on her teaching style by saluting her wisdom and intellect as a teacher, who is far beyond her years.

While working with Amber Lawson I have gained many strategies and helpful tools that can be used to build healthier school cultures and high school performance.

Amber Lawson's diligence to stay on task and complete assignments speak volumes for a potential Graduate Studies Student. During my experience in Education Leadership I have never met a teacher who can execute projects timely and efficiently and still posses the capability to maintain normalcy in the classroom with over twenty five Kindergarten students who were trained to be self directed.

I can only admit that Amber Lawson's professional promise to scholarly achievement is particularly helpful for the advancement of her students and her personal academia. I see a very promising future in the career of education with Amber Lawson being a leading pillar for this century of new professionals.

Best Regards,

Jamar Broaden
Dean of Students
